The Solution
<p>Customer will place orders (“Orders”) for the components comprising Ecofit’s real time fitness equipment status and utilization monitoring solution (the “Solution”) from time to time using order forms made available by Ecofit.</p> <p>The Solution may comprise one or more following components, as ordered by Customer from time to time:</p> <ol style="list-style-type: none">1. Equipment<ul style="list-style-type: none">● Relays - Relays are sensors that connect to the CSAFE port of cardio fitness equipment. The Relay collects equipment usage information and wirelessly transmits the data to a local Gateway.● Buttons - Buttons are battery powered sensors that detect equipment utilization based on physical motion. Buttons collect utilization information and wirelessly transmit this data to a local Gateway.● Gateways - Gateways are hubs that collect the wireless Relay and Button data within a facility and relay this information to the Ecofit cloud storage platform. The Gateway connects to the equipment sensors via the Ecofit wireless protocol and to the cloud platform via a hard wired, facility provided internet connection.2. Cloud Services<ul style="list-style-type: none">● Website Portal● API Interfaces - API access of customer data to third party software firms when approved by customer. These API allow real time equipment status and utilization information to pass through to other applications.3. Professional Services

Fees	
Fees payable by Customer for the Solution will be detailed in each Order.	
Agreement Term	
Effective Date:	[X]
Initial Term:	The “ Initial Term ” is the one-year period following the Effective Date.
Renewal Term(s):	This Agreement will automatically renew for successive one-year periods each (“ Renewal Term ”), unless either Party provides the other with written notice of its intent not to renew at least 60 days before the end of the then-current Initial Term or Renewal Term, as applicable.
